Debut Carbon EVO

Time for Evolution. We have taken our most popular turntable design and improved every aspect of it. The result is an incredibly refined product.

The Evolution

The Debut Carbon EVO focuses on the core aspects that make a turntable sound great. Technically correct design – expert craftsmanship – handmade in the EU. This turntable is built to last you a lifetime!

The Debut is one of the best-selling products in the history of hi-fi with close to 1 million units sold. As it made listening to vinyl an affordable option for music lovers, with its minimalist aesthetic and premium finish options it also made analogue fashionable again.

SATIN WHITE

Through the years we constantly kept improving our formula, moving with technologies and fashion trends.

The solid MDF plinth with new 8x hand-painted finishes looks and feels better than ever before. They have been carefully chosen to reflect current trends and customer fashions.

The Debut Carbon EVO is not only timeless by offering traditional high-gloss black, white, red finishes. Completely new, unique and trend-setting are the beautifully realized satin finishes in 5 different variations.

Last but not least.
We offer a real wood walnut veneer.
It perfectly matches our walnut
bookshelf speakers – Speaker Box
5 S2. Complete your setup with the
all-in-one amplifier MaiA S2.

TPE-ring

1,7 kg Platter

Heavy steel and TPE damped

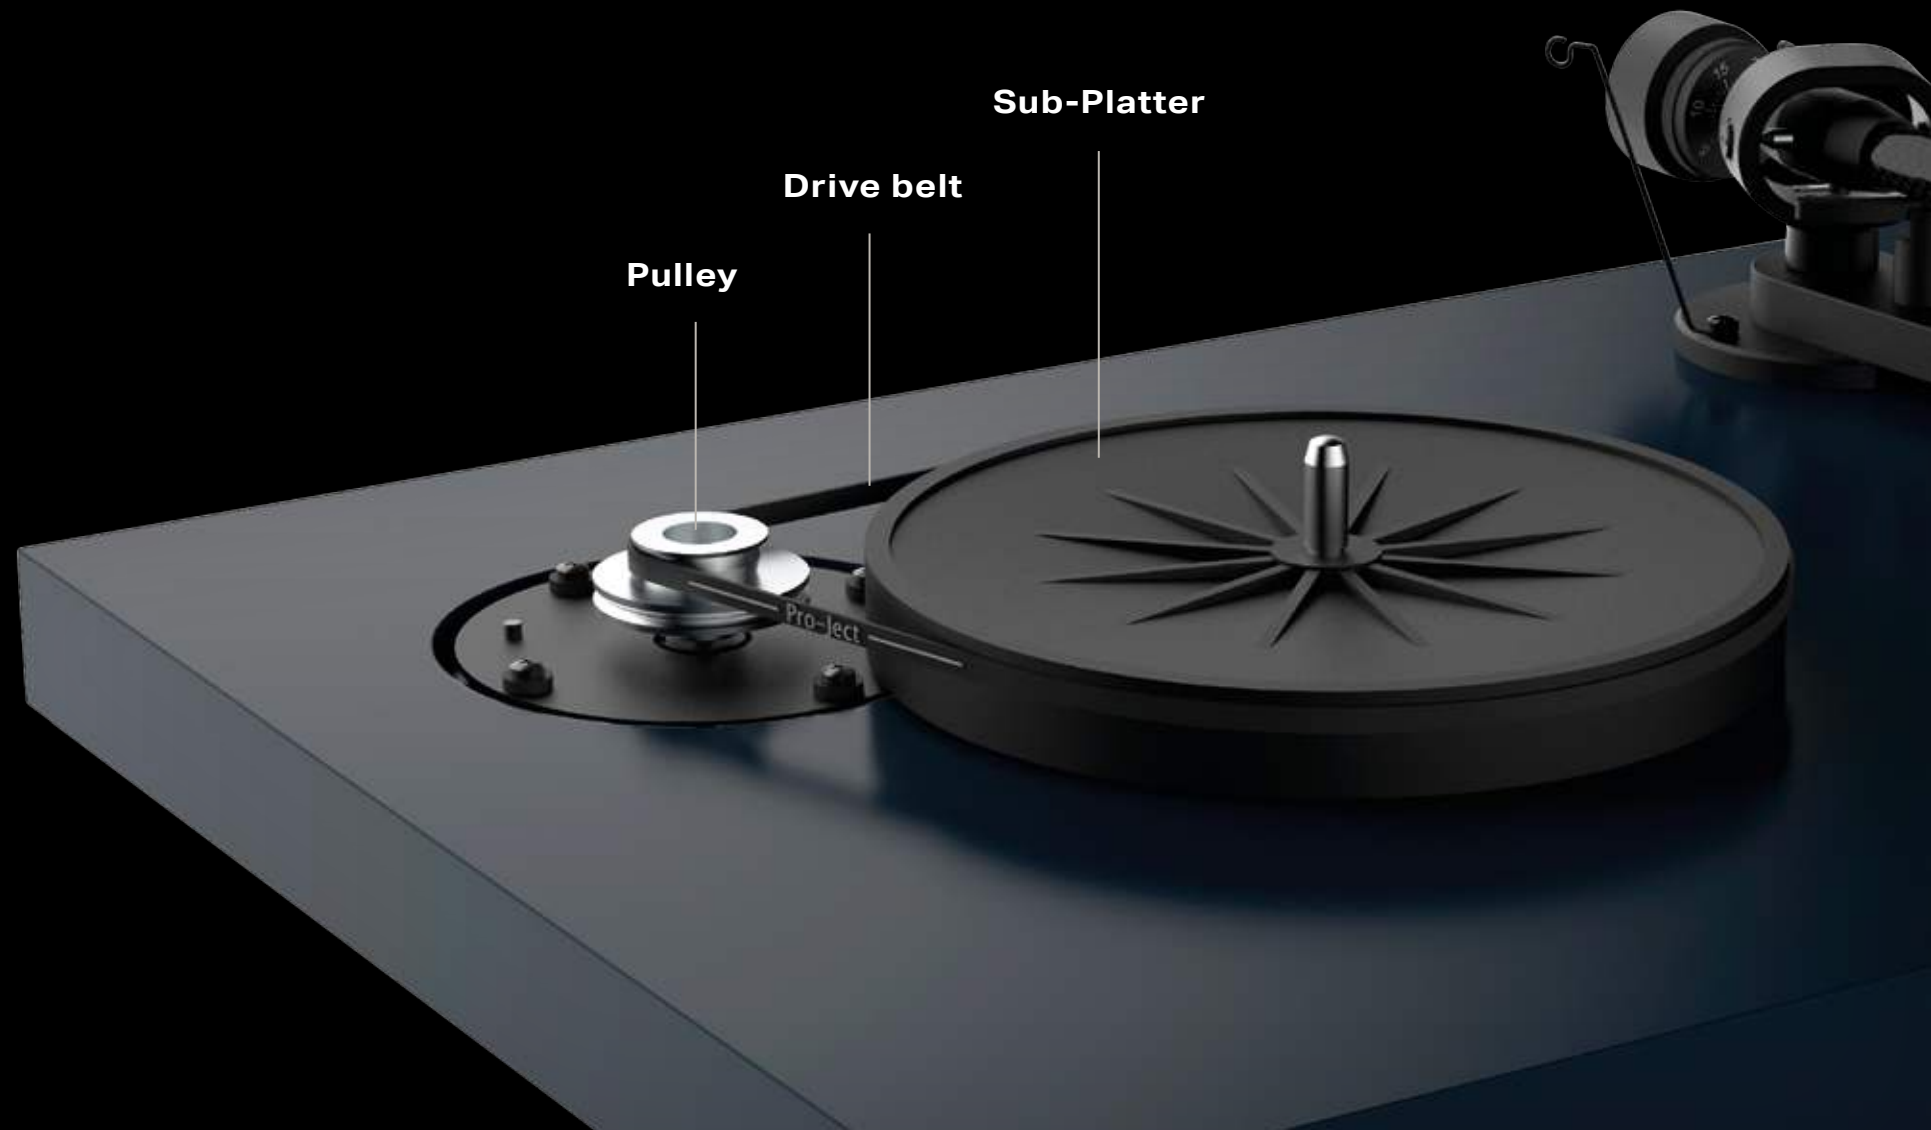

We added a TPE (thermoplastic elastomer) ring on the inside of the platter. The result is an even quieter and noiseless operation with less wow and flutter.

Suspension

Improved motor suspension

The Debut Carbon EVO features our newly designed motor suspension. We have improved the old design to consistently reduce the vibrations better than before.

33/45/78 RPM

Controlled playback speeds

Change replay speeds with the push of a button, the playback speed is electronically controlled with the utmost precision.

Metal Feet

Damped & height-adjustable

The new Debut Carbon EVO stands on three height adjustable damped aluminium feet to guarantee the perfect stand.

Ortofon 2M Red

Moving-Magnet Cartridge

2M Red is an all-purpose cartridge that delivers open, dynamic sound with a slight touch of warmth.

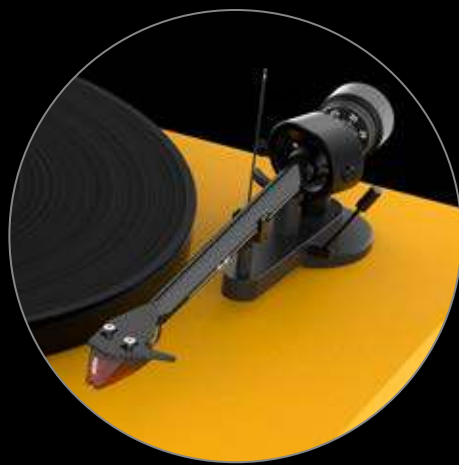

(*US Version comes with Sumiko Rainier)

The Tonearm

8,6 inch carbon

Debut Carbon EVO features the proven 8,6" one-piece Carbon tonearm design. The super stiff, but lightweight tonearm delivers an insane sound quality with a convincing sound stage.

Output

Gold plated sockets

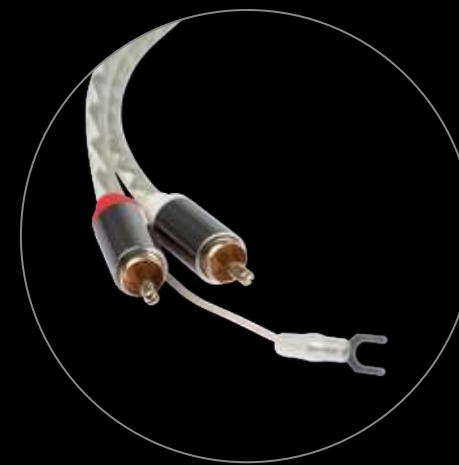

You can always change your RCA output cable and upgrade it with your preferred one. The gold plated connectors will always provide the best connection.

Phono Cable

Semi-balanced RCA cable

To guarantee a perfect connection to your amp you will find a high-quality phono RCA cable in the box. Our Connect it E is a semi-balanced, low-capacitance cable, with superior shielding.

Dustcover

The matching protection

The new Debut Carbon EVO is supplied with an adjustable acrylic dust cover. It is super easy to install and will protect the sensitive parts of the deck.

Colors

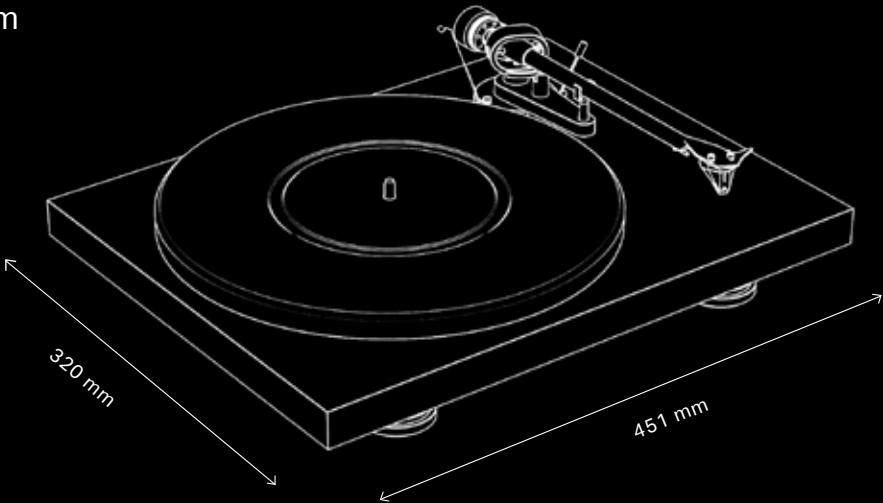

Technical Specifications

Drive principle	belt drive with electronic speed control
Nominal speeds	33/45 r.p.m.. *** 78 r.p.m. optional
Platter	Ø 300mm; 1.7kg steel platter with TPE damping
Platter bearing	stainless steel axle in bronze bushing
Speed variance	33: ±0.50% 45: ±0.60%
Wow and flutter	33: ±0.17% 45: ±0.15%
Signal to noise	68dB
Tonearm	one-piece carbon tonearm
Effective tonearm mass	6g
Effective tonearm length	8.6" (218.5 mm)
Overhang	18,5 mm
Power consumption	4 W/ 0 W in Stand-By
Outboard power supply	15V / 0 – 0.8 mA DC (set at 0.5 mA), universal PSU

Ortofon 2M Red:	
Frequency range	20-22.000 Hz
Channel separation	22dB/1 kHz
Output voltage	5.5mV
Recommended load impedance	47kohms/amplifier connection – MM-input

Dimensions and Weight

Height: 118 mm
Width: 451 mm
Depth: 320 mm
Weight: 5.6 kg

- Satin Finish      *White, Black, Golden Yellow, Steel Blue, Fir Green*
- High Gloss    *White, Black, Red*
- Real Wood  *Walnut veneer*
