

# Our classic integrated stereo amplifier

## Stereo Box DS3

Versatile integrated amplifier

Our new Stereo Box DS3 looks nearly identical to the DS2 version – so what's the difference? We improved nearly on all technical aspects of the amplifier section and added a brand-spanning new BLUETOOTH® chip for better compatibility.

The Stereo Box DS3 is available for MSRP 899 € (incl. VAT).  
At Pro-Ject dealers in April 2023.

## Stereo Box DS3 – improvements where they count

### A classic integrated with ample power

The Stereo Box DS3 is Pro-Ject's take on a classic stereo amplifier. It has solid, proven technology with 3 line inputs, a phono input for MM and MC cartridges, and a brand new Bluetooth V5.0 input for high compatibility with your source devices. The trigger connections allow you to power up other components with a single button.

We designed the power amp section in a dual mono configuration with even more power than the previous DS2 model, with up to 150W per channel into 4 Ohms. The Stereo Box DS3 has enough grunt to handle the most demanding speakers offering a soundstage that isn't only wide but deep too!

The headphone jack isn't just an afterthought slapped onto the circuit board. The headphone output offers a whopping 450mW at 32ohms. The included remote control is the proverbial "cherry on top".

The quality case is available in a black or silver finish and can be customized with magnetic wood side panels available in Walnut, Rose-nut, and Eucalyptus to match your interior.

### Designed & handmade in Europe

The new Stereo Box DS3 is carefully designed and handmade in Europe. We aim to develop a technically flawless device in a housing that is only as big as necessary to save raw materials.

Due to the timeless design & rigid aluminium casework, the Stereo Box DS3 is built for eternity.

We want to pioneer the industry by using high-quality materials, components and well-thought-out designs.

- **NEW** 2 x 150 watts at 4 ohms output power
- **NEW** BLUETOOTH® V5.0 - aptX, aptX HD, A2DP profile
- **NEW** Pro-Ject remote control included
- Analogue volume control & motor driven potentiometer
- Dual mono design principle

- Fixed & variable outputs for subwoofer or second zone amp
- Trigger In and Output
- Gold plated RCA connectors
- Rigid aluminium casing protects against interference
- Magnetic wooden side panels available separately
- Available in black or silver
- Made in Europe

## The history of Pro-Ject

Pro-Ject was founded in 1991, during the onslaught of the compact disc and CD players, with the mission to offer the best analogue experience for a reasonable price. In a time where the digital audio media had been on the rise, and vinyl was declared as outdated and dead, Heinz Lichtenegger kept his belief in the simple but best way to enjoy music – turntables.

We aim to get as many people as possible into the wonderful hobby that is HiFi audio and to deliver a real stereo experience for the lowest cost possible. The best way to start is with a proper turntable. We want to give the customers back the right to choose what they need, without overblowing our products with unnecessary features.

Here at Pro-Ject, we strive to create astonishing products with impeccable value. We only use the best components for the price and manufacture our handmade goods solely in Europe. With an eye for future trends, we are always trying to fit the needs of the market.

Our passion and drive have been recognized by many acclaimed magazines. We have won multiple awards from the renowned HiFi press for our turntables and electronics over the years. Our products have also been used in countless TV shows and movies.

With cutting edge technologies and machines, we can create visually pleasing products without losing the eye for the finest details. We closely work with partners from the music industry, such as Universal Music Group (The Beatles), Third Man Records (Jack White), The Rolling Stones, Parov Stelar, or the world-famous Hard Rock Café. Many industry leaders also cooperate with us, like the Vienna Philharmonic Orchestra or Ortofon for their jubilees. With these partners, we create special limited edition products to give our customers even more choices.
