

# MC Step Up Box S3 & DS3 B

## Step-Up Transformers

Gold plated RCA terminals

Compact solid aluminium casing

Balanced in- and outputs

Lundahl LL 1678 audio transformers

We are happy to introduce you to our new product category: MC Step Up Boxes.

Step-Up transformers do not need external power as they work completely passive and bring the low output of a MC cartridge nearly noise free to MM level. The signal stays clean, with less harmonic distortion, compared to a usual MC phono stage.

MC Step Up Box S3 is our compact solution with dual mono design principle and gold plated RCA terminals, allowing two cartridge impedance range settings at the back.

MC Step Up DS3 B is our premium solution using high quality Lundahl LL 1678 audio transformers and offers single-ended as well as balanced in- and outputs for an optimum signal transmission.

The MC Step Up Boxes are made in Europe and available in silver or black aluminium housing.

**MC Step Up Box S3 is available for MSRP 449 € (incl. VAT).**  
**MC Step Up Box DS3 B is available for MSRP 899 € (incl. VAT).**

At Pro-Ject dealers in November 2023.
